

Modules	Activities
Discovery (Phase Zero)	Basic Requirement (What we are trying to achieve, high level overview)
	Requirement User Flows Diagrams
	Frontend Tech Stack Selection
	Backend Tech Stack Selection
	Gather and finalize deployment stacks(develop and staging)
	Over all system Architecture diagram
	AI based UX designing / Wireframing
	Feasibility study
	No/Low Code Web Development Feasibility Study
	Feasibility of spec driven development approach
	AI coding best practices and documentation
	Configuration Approachs for reusing with different Clients / Units
	Finalizing the modular and breathable UI styles and conventions
Foundation - Profile Engine(Phase One)	
	Invite Based Login setup / Auth Screens
	Employee Registration screen(by Admin)
	One Time Script to add employees
	Basic Emp. Resume / Profiling landing page
	Database Design
	Backend / API creation for Phase one
	Constellation Profile visualization and animations design phase
Foundation - Profile Engineand case study(Phase one)	Constellation Profile visualization and animations develop phase
	Adding node to the constellation
	Updation profile flow(emp only: Primary details)
	Case Study Submission Flow
	Case Study Approvals and Collaboration
	Points System Backend
	Backend Blob Storage
	Backend / API creation for Phase two

Core XP and Badging System(Phase Two)	Pointing Configuration system for each entity(Projects, skills, poc, case study.....)
	Employee Badge system(Allocating badges based on achievements)
	Core Point on employees with analytic support
	Leaderboard UI of employees for managers
	Backend and APIs for Phase 2
	Adding other entities to the scope(e.g: Certifications, etc)
Leader Command Center(Phase three)	Admin Dashboard Layout
	Manager Dashboard Layout
	Bench Management tracker
	Emails and notification systems
	Actions To Do with breathable UI configuration
	Adding Live / POC projects to systems and invites to employees
AI & Automation	AI Recommendation Engine
	Create tools for all the APIs from BE system for AI consume
	AI Integration to application (Not a chat bot)
	AI based mentoring and career road map
Intelligence & Ecosystem	Third-party API Integrations
	Advanced Reporting
	Final QA & Deployment
